HEADQUARTERS:

UNITED STATES AIRFORCE

Washington, D.C.

Gentlemen,

Chance has put me in possession of what I believe to be a very fine, 35mm, color slide showing a presumably unidentified flying object.

The phenomenon is perfectly spherical, very luminescent and obviously in horizontal movement. It is surrounded by a purple halo or aura ( probably compressed atmosphere).

It quite accidentally showed up in a picture I took ( May 30 ) of the Belgian Village at the New York World's Fair, and the object was not apparent to the naked eye at the time.

I understand from Newsday, a Long Island Daily, that you have a Dr. J. Allen Hynek investigating such phenomena. If you think it may possibly be of interest to him and will inform me at what address he can be reached, I'll be glad to send the picture to him.

Very truly yours

1. PURPOSE: This report answers Work Order 65-103 submitted by Major H. Quintanilla, Jr., requesting analysis of a color slide to determine the cause of a circular object visible in the sky. Analysis was conducted by the Photo Analysis Division (TDDPA), and the Photo Processing Division (TDDPP).

2. ANALYSIS: Examination of the color slide revealed no signature to the reported object in the sky. However, after close examination, the image in the slide appeared to have been caused by a processing defect. The defect was possibly caused by a drop of bleach hitting the film prior to the first development.

Dear Sir -

Returning carbon of your letter with the  
original negative in question. I've had duplicates  
made, so if it is of interest to you, you're welcome  
to keep it for your records.

I'll be very interested in seeing the results  
of your analysis.

Very truly
